Summary

The **Evidence-Based Tools and Data-Driven Service Delivery Trainings** offered by Amitie LLC aim to enhance the skills and knowledge of individuals working in health and community services. These workshops focus on integrating data effectively into practice to improve decision-making, bolster community health interventions, and ensure that programs are evidence-based. Each training emphasizes practical application, providing participants with the resources they need to create meaningful impact in their communities while earning certifications and CEUs to support their professional development.
